Ultimate Convenience for Planting Seeds

We've worked with single row seeders for a long time, and we always thought to ourselves "here is an ingenious product, a solution to the back-breaking process of planting seeds – we studied what can be done

So, in line with our mission to save you from compromise, we've built the Cresco single row seeder to make your seeding even easier. Whether you're using it for personal use, as a market gardener, or horticultural grower, the Cresco row seeder and planter is built with quality, giving you convenience and high-performance rolled into one.

Whatever seeds you're planting, the Cresco Seeder can effortlessly plow your furrow, sow the seeds, cover and compact the ground, and mark out your next row.
